

■ for employers

placement partners understands how small and large companies work and the types of individuals that fit best into each corporate structure because we once held the positions we now fill.

placement partners understands what the position requirements and terminology of the construction and architecture industries really mean.

placement partners understands how to evaluate a candidate's experience against the position requirements.

With a flat corporate structure, you will always be working with one of our *Search Executives*, each with substantial experience in the design and construction industries.

We take on only what we can handle and our goal is for each client to be a repeat client.

placement partners treats every assignment as our only assignment.

■ for jobseekers

placement partners is an organization founded by individuals that worked the positions you are seeking. Since we have also hired and managed these same positions, we understand what employers are looking for and how best to present a candidate's credentials.

Our search process will follow these general steps:

- Understand Your Background
- Evaluate Your Needs
- Initial Position Database Cross Reference
- Present First Line Screening Opportunities
- Present Your Qualifications
- Position Interviews

Having contacts with many of the top architects and builders in the U.S., our pool of positions is substantial. If you are a quality individual with high integrity and values, **placement partners** would like to speak with you.

We understand your needs because at one point, they were our needs too.

Please give us a call to find out what sets **placement partners** apart from the rest.
